## THIS IS WHAT YOU CAN DO WITH US

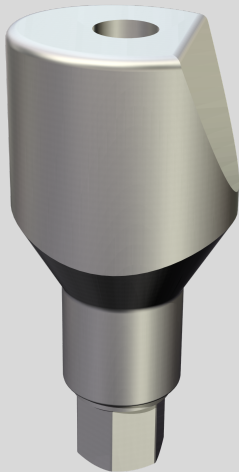

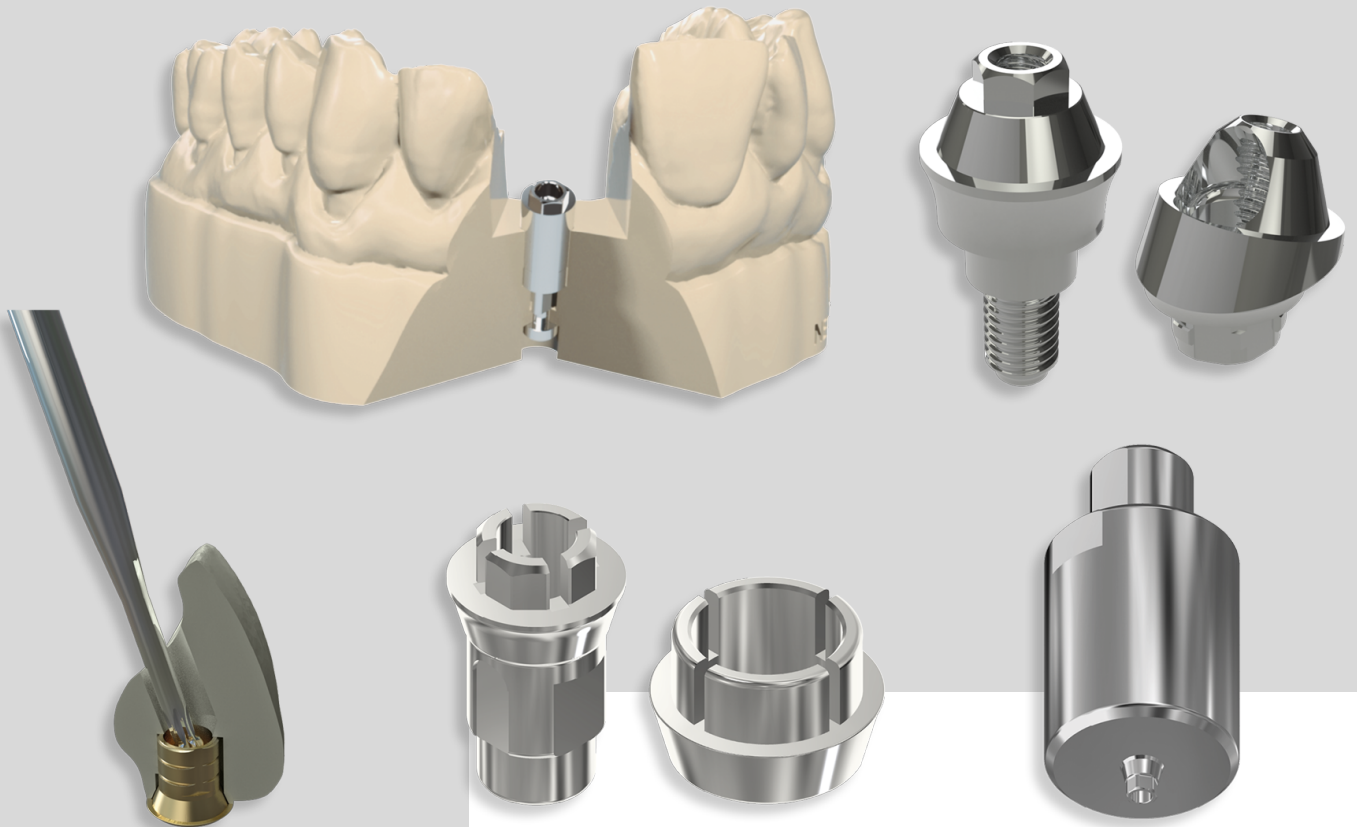

**NEW ANCORVIS** think about yourself!

With over **900 items** in our ever-changing catalogue, New Ancorvis offers:

- **AQ line scan abutment**
- **Digital and laboratory analogues**
- **Multi-Unit Conical Abutment Converters**
- **Link-in System for bonding technique**
- **Sly System for screw-retained technique**
- **Pre-milled**
- **Prosthetic screws**

New Ancorvis implant components are designed and optimised to meet the needs associated with the use of **digital technologies** applied to the dental sector.

In this view, we also offer **specific production systems for owners of IN-HOUSE machines** (milling machines/3D printers) which,

combined with New Ancorvis implant components, allow you to take full advantage of our services and quality. The production of our implant components begins with a careful dimensional analysis that finds confirmation and guarantees precision in the use of high-performance production machinery and in a multi-step tolerance verification testing process. All proven by the **CE Marking** that accompanies all of our components and that **establishes the compatibility of New Ancorvis components with the original component in relation to the entire connection-implant system.**

Can't find the component with the characteristics best suited to your needs? Create your ideal component using our **Just in Time and Just in Time Abutment Creator system!**

Purchase the Gemini Line on [www.newancorvis.eu](http://www.newancorvis.eu) in the dedicated **Speedy Shop** section.
